MEMORANDUM FOR:	Deputy	Director	for	Administration
-----------------	--------	----------	-----	----------------

THROUGH:

Deputy Director for Science & Technology

Director. Personnel Policy, Planning & Management

FROM:

Director, Foreign Broadcast Information Service

SUBJECT:

Non-Standard Basic Workweek

REFERENCE:

STAT

STAT

- 1. Paragraph five contains a recommendation for the approval of the Deputy Director for Administration.
- 2. In order for FBIS to fulfill its mission the Communication Center and the Wire Services Staff at headquarters and the London and Okinawa bureaus are required to be staffed on a 24 hour basis, seven days a week. This staffing generally conforms to the standards established in reference for a basic workweek but there are occasions when two successive days off cannot be scheduled. In all instances the scheduled staff work hours equal 80 in a two week pay period.
- 3. These offices have been operating on a 24 hour shift basis for many years and scheduling procedures, T&A reporting etc., are well known. Approval for the non-standard workweek was previously obtained in 1966 from the then Director of Personnel and this paper seeks an update of that approval at the appropriate level.
- 4. The following information is included in the attachments as follows:
  - Attachment A Exemplary work schedules for Okinawa covering Staff editors and the Chinese Foreign National Unit,
  - Attachment B Work schedules and explanatory information submitted by London Bureau,
  - Attachment C Exemplary work schedules for the Communications Center,
  - Attachment D Exemplary work schedules for the Wire Services Staff.

	SUBJECT: No tandar Basic Workweek	
	5. It is requested that the Deputy Director for Administration approve non-standard workweeks for the four entities described above.	0.7.0
